

## Touch screen

Upgrade your moulding machine with a new digital flow monitor to improve your productivity.

Digital flow monitors will give you many advantages such as:

- Digital monitoring of Flow, Temperature and Pressure
- Alarm Output
- Higher flow capacity
- Higher temperature range
- Data storage and export
- Faster Mould changeovers
- OPC-UA / Euromap interface/

Display	
Type	Touch
Size	7,1"
Voltage	12-24 Volt.
Data	USB + Ethernet
Communications	OPC UA
Internal memory	Up to 30 days data (FIFO)

Touch Screen mounted to the Manifolds.

Equipped with power, alarm, USB and Ethernet connections.

The main screen will show all circuits with information about flow and temperature. The main inlet and outlet will also show including pressure.

Data is stored in the internal memory and can be displayed in graphical view for each circuit. Data can also be exported for external use.

By clicking on a specific circuit you will see detailed information, including delta T (heat transfer) of the specific channel. Also, turbulent flow indicator is included.

The system is equipped with Audit Log to keep track of all events including user ID tracer.

Size	Manifold Inputs	Power Connection	Alarm Output	Interface
7.1"	4	12V	Yes	OPC-UA
