

2 HANDLING 3 MOTORIZED CRANES ROTATING AT 210 ° BALLASTED

ITEM: M9460

Fully electric crane equipped with motorized traction, usable in all industrial sectors.

- Electric lifting controlled by proportional levers
- Electric rotation at 210 °
- Electric extension with overhang up to 2 meters
- Motorized traction driven by ergonomic tiller equipped with horn and anti-crushing buttons
- Hare / Turtle button that allows driving at 2 speeds

Advantages:

- Suitable for front loading
- Maximum permissible load limitation system
- Allow handling with suspended load
- Crane with the smallest dimensions in its category
- Exceptional steering angle that a
- Transportable by forklift

Equipment:

- Use and maintenance manual
- Ballast - Integrated charger with remote indicator for the display of the charging phase

Tech. Code		M9460200	M9480BAT
Load capacity	Kg	200 - 80	Battery
Cantilever	mm	583 - 2050	-
A max	mm	3700	-
Speed	Km/h	1,5/3	-
Weight with ballast	Kg	800	-

ITEM: M9465

Fully electric crane equipped with motorized traction, usable in all industrial sectors.

Features:

- Electric lifting controlled by proportional levers
- Electric rotation at 210 °
- Electric extension with overhang up to 2 meters
- Motorized traction driven by ergonomic tiller equipped with horn and anti- crushing buttons
- Hare / Turtle button that allows driving at 2 speeds

Advantages:

- Suitable for front loading
- Maximum permissible load limitation system
- Allow handling with suspended load
- Crane with the smallest dimensions in its category
- Exceptional steering angle that allows it to move or to rotate in confined spaces
- Transportable by forklift

Equipment:

- Use and maintenance manual
- Ballast
- Integrated charger with remote indicator for the display of the charging phase

Tech. Code		M9465500	M9480BAT
Load capacity	kg	500 - 200	Battery
Cantilever	mm	487 - 1963	-
A max	mm	3700	-
Speed	km/h	1,5/3	-
Weight with ballast	kg	1100	-
