

Weller[®] SOLDERING GUNS 100 W

ITEM: 8100

Expert Soldering Gun with built-in illumination of the solder-joint and copper soldering tip. All purpose gun, that tackles soldering, cutting, sealing and pyrograph with instant heat through interchangeable tips, this gun is activated with the fingertips and is ready for welding in 7 seconds. Standard equipment: 1 soldering tip.

Complies with the European Safety standards.

| Tech. Code | | Power | Voltage |
|------------|--|-------------------------|---------|
| J8200100 | | 100 W | 230 |
| J8200PS | | Welding tips (2 pieces) | |
| J8200PT | | Welding tips (1 piece) | |

Weller[®] SOLDERING IRON 40 W

ITEM: SP40N

Professional welders equipped with LEDs for lighting the welding area, ergonomic handle in two-component material which ensures excellent grip and tip control, ideal in the electronics industry.

Standard equipment: 1 soldering tip. Complies with European safety standards.

| Tech. Code | | Power | Voltage | Temperature |
|------------|--|-------------------------|---------|-------------|
| J820500 | | 40 W | 230 | 460 °C |
| J8205PS | | Welding tips 6,3 (3 p.) | | |

Weller[®] SOLDERING IRON 80 W

ITEM: SP80N

Professional welders equipped with LEDs for lighting the welding area, the ergonomic handle in two-component material ensures excellent grip and tip control, ideal in the electronics industry.

Standard equipment: 1 soldering tip. Comply with European safety standards.

| Tech. Code | | Power | Voltage | Temperature |
|------------|--|-------------------------------|---------|-------------|
| J811100 | | 80 W | 230 | 482 °C |
| J8111PS | | Welding tips mm 9,5 (1 piece) | | |

Weller[®] SOLDERING IRON 120 W

ITEM: SI120

Soldering irons for demanding jobs ideal for professional use, with bent tip, 12, 5 mm

Complies with the European Safety standards.

| Tech. Code | | Power | Voltage |
|------------|--|----------------------|---------|
| J821200 | | 120 W | 230 |
| J8212PS | | Welding tips mm 12,5 | |

Weller[®] ANALOGIC AND DIGITAL SOLDERING STATIONS

ITEM: WHS40 - WHS40D

Analogical and digital soldering with welding temperature control. Temperature range is between 200°C and 450°C for analogic version, and between 150°C and 450°C for digital version.

These stations are composed by one feed unit, one soldering iron, one support and 2mm tip (longlife tip for digital version).

Digital station is suitable for fragile soldering and has a display to control the temperature.

| Tech. Code | | Model | Power Watt | Voltage | Temperature |
|------------|--|--------------------------------|------------|---------|-------------|
| J8215AN | | Analogic | 40 | 230 | 220-450 °C |
| J8215DG | | Digital | | | 150-450 °C |
| J8215PS2 | | Welding tips mm 2 (1 piece) | | | |
| J8215PS35 | | Welding tips mm 3.5 (3 pieces) | | | |
