

12V BATTERY WELDERS

ITEM: M12 SI-201C

M12 SI-201C battery-powered soldering iron with extremely fast heating time, ready for use in 20 to 30 seconds. 3 head locking positions to work comfortably in multiple positions (0°, 45°, 90°). Replaceable tips without tools. The two-colour LED lights up differently: blinking green when the tool is heating up, fixed green when the tool is ready for use and fixed red when the tool is off but the tip is still hot (**do not touch until red LED has gone out**). Works with all Milwaukee® M12™ batteries.

Tech. Code		J824012
Battery capacity	Ah	2
Weight with battery	Kg	1,2
Heating power	W	90
Temperature range	°C	400
Battery charging time	min	40
Battery type		Li-ion
Voltage	V	12

Supplied with:
 - 1 battery 12V da 2,0 Ah
 - 1 battery charger
 - carrying case

DISSOLDERING PIPES

ITEM: J8250

Tech. Code	Total length mm
J825000	215

TIN ALLOY AT 50% IN WIRE COILS

ITEM: J8255

Tech. Code	Wire ø mm	Reel g
J825510	1	500
J825515	1,5	

TIN ALLOY AT 50% IN RODS

ITEM: J8258

The tin is sold in 400 mm rods for a total weight of approximately 1 kg

Tech. Code	Rods mm	Weight kg
J8258400	400	approx. 1

CARTRIDGE GAS WELDER

ITEM: J8260

[SAFETY DATA SHEETS ON-LINE](#)

Piezoelectric ignition, gas preheating to weld even upside down. Supplied without cartridge.
