

ADJUSTABLE PLIERS

ITEM: 86 02 250

Adjustable tool for screwing, clamping, supporting, crushing and bending pieces, without any damage to edges on sanitary installations with delicate surfaces. Adjustment by pressing the button directly on the workpiece. Thanks to the parallel jaws it is possible to continuously tighten all the openings up to the indicated capacity. Forged and oil-hardened chrome-vanadium steel with gray bonderized finish, graduated scale and two-component coated handles.

Tech. Code	Length mm	Max capacity mm	Max capacity Inches
F0577250	250	52	2"

ITEM: 86 03 125/150/180/250/300/400

STANDARD DIN/ISO 5743

Adjustable tool for screwing, clamping, supporting, crushing and bending pieces, without any damage to edges on sanitary installations with delicate surfaces. Adjustment by pressing the button directly on the workpiece.

Thanks to the parallel jaws it is possible to continuously tighten all openings up to the capacity indicated.

Forged chrome-vanadium steel, oil-hardened with chrome-finish, handles coated with synthetic resin.

Tech. Code	Length mm	Max capacity mm	Max capacity Inches
