

## SERVICE CASE XXL III WITH ASSORTMENT SET OF TOOLS FOR ELECTRICIAN'S

### ITEM: XXL III ELECTRIC 44128

Very sturdy trolley case made of polypropylene, usable in a raised position to extract tools more easily, equipped with gas shock absorbers that keep the lid open in different positions and large wheels to deal with rough terrain and stairs. If necessary, it can be used as a stable step for working at height. Equipped with a tool kit suitable for working on live parts and components up to 1.000V-AC, the complete equipment for the professional electrician in mobile use.
