WODEX T-HANDLE SWIVEL HEXAGONAL SOCKET WRENCHES

ITEM: WX1910
STANDARD UNI 6743

PREMIUM QUALITY socket wrenches in chrome vanadium steel with hexagonal mouth and cardan joint. The high quality of the materials combined with a particularly accurate execution guarantee tightening torques higher than the values establised by the ISO standard of reference. The cardan joint is equipped with a spring for controlled positioning and can be tilted up to 90 °. Sliding control rod with limit switch stops. Satin chrome finish with phosphated jointed parts.
