

TORQUE INDICATOR SCREWDRIVERS PRE-SET FOR TORX® SCREWS 400 TX

ITEM: 400 TX

Torque Indicators with fixed torque pre-set for **TORX®** screws, set by the manufacturer on the most recommended torque by the major hard metal tool manufactures with excess load signal that is distinct audible and perceptible when the pre-set torque value is reached, unlimited torque loosening to unscrew blocked screws. Multicomponent "T" grip handle with anti-rolling protection.

Precision: $\pm 10\%$.

Tech. Code		Ø	Nm	a mm	L mm	h mm
E663720		T 20	4	60	108	100
E663725		T 25	5			

TORQUE INDICATOR SCREWDRIVERS PRE-SET FOR TORX PLUS® 300 IP

ITEM: 300 IP

Torque Indicators with pre-set for **TORX PLUS®** screws, set by the factory on the recommended torque by the largest hard metal tool manufactures with excess load signal that is distinct audible and perceptible when the pre-set torque value is reached, unlimited torque loosening to unscrew blocked screws. **Kraftform** grip handle multi-component with anti-rolling protection. Precision: $\pm 10\%$

Tech. Code		Ø	Nm	a mm	L mm
E66606		6IP	0,6	65	170
E66607		7IP	0,9		
E66608		8IP	1,2		

Tech. Code		Ø	Nm	a mm	L mm
E66609		9IP	1,4	65	170
E666010		10IP	2		
E666015		15IP	3		

ITEM: 300 IP

Torque Indicators with pre-set for **TORX PLUS®** screws, with excess load signal that is distinct audible and perceptible when the pre-set torque value is reached, unlimited torque loosening to unscrew blocked screws. **Kraftform** pistol grip handle multi-component with anti-rolling protection. Precision: $\pm 10\%$.

Tech. Code		Ø	Nm	a mm	L mm	h mm
E666520		20 IP	5	65	160	100

ADJUSTABLE TORQUE SCREWDRIVERS 7400

ITEM: SERIE 7400

Torque screwdrivers series Kraftform 7400 with adjustable torque value without any special tools. Precision of measurement of $\pm 6\%$ DIN EN ISO 6789 with excess load signal distinct audible and perceptible when the torque set value is reached. Model with rapidaptor technology with 1/4" hexagonal drive DIN ISO 1173-C 6.3 - E 6,3.

Tech. Code		Ø	Scale Nm	Resolution step Nm	L mm
E66900,34		1/4"	0,1 - 0,34	0,015	142
E66901		1/4"	0,3 - 1	0,05	
E66901,2		1/4"	0,3-1,2		155

Tech. Code		Ø	Scale Nm	Resolution step Nm	L mm
E66901,5		1/4"	0,9 - 1,5	0,05	142
E66903			1,2-3,0	0,10	155

ITEM: 7442 - 7443

Torque screwdrivers series Kraftform with adjustable torque setting without the aid of wrenches. Measurement accuracy of $\pm 6\%$ according to DIN EN ISO 6789, with well audible and perceptible trigger signal when the desired torque is reached. Model with Rapidaptor technology with 1/4" hexagonal shank according to DIN ISO 1173-C 6,3 - E 6,3.

Tech. Code		Ø	Scale Nm	Resolution step Nm	L mm
E66916		1/4"	3 - 6	0,25	150

Tech. Code		Ø	Scale Nm	Resolution step Nm	L mm
E66918,8		1/4"	4 - 8,8	0,4	150
